

# Domestic Violence

## and the Impact on the Workplace

One Day Workshop

Attend this one day workshop, and learn essential information about Domestic Violence risk management in YOUR workplace.

### *As an employer, what would you do if...*

...Sue came to work with bruising on her face, and her boyfriend was unexpectedly waiting in the parking lot to take her home?

.... Bryan, a senior manager, received 25 calls a day from his ex-wife?

Limited spots available!  
Register at the early bird rate!

### *This workshop will provide critical information about Domestic Violence risk management including:*

- Develop a framework for Recognizing, Understanding, Supporting and Helping to refer victims and abusers (RUSH ©)
- An understanding of workplace safety issues in relation to domestic violence and what to do when incidents occur
- Acquire the skills to assist with safety planning for the victim, and the workplace
- An understanding of high risk indicators
- Factors to consider when developing policies and procedures to govern the workplace
- Compliance with Bill 168's amendment to understanding domestic violence and the employer's responsibility
